

# **A Companion to Cognitive Anthropology (Wiley-Blackwell)**

David B. Kronenfeld, UC, Riverside, Ed.  
Giovanni Bennardo, Northern Illinois University, Assoc Ed  
Victor C. De Munck, SUNY-C New Palz, Assoc Ed  
Michael Fischer, Kent at Canterbury (UK), Assoc Ed

## **TABLE OF CONTENTS (as of May 12, 2010) suggested by Giovanni Bennardo**

**Introduction** (David B. Kronenfeld)

### **Part I: History of Cognitive Anthropology and the nature and types of Cultural Knowledge Structures**

1. A History of Cognitive Anthropology (B. G. Blount)
2. The History of the Cultural Models School Reconsidered: A Paradigm Shift in Cognitive Anthropology (Naomi Quinn)
3. The Cognitive Context of Cognitive Anthropology (Jürg Wassmann, Christian Kluge, and Dominik Albrecht )
4. The Limits of the Habitual: Shifting Paradigms for Language and Thought. (Janet Keller)
5. Types of Collective Representations: Cognition, Mental Architecture, and Cultural Knowledge (Giovanni Bennardo and David B. Kronenfeld)
6. Personal Knowledge and Collective Representations (John Gatewood)

### **Part II: Methodologies**

7. Methods of Data Collection (W. Penn Handwerker)
8. Data, Method, and Interpretation in Cognitive Anthropology (James Boster)
9. Multi-item Scales and Cognitive Ethnography (Kateryna Maltseva and Roy D'Andrade)
10. Consensus Analysis (Stephen P. Borgatti and Daniel S. Halgin)
11. Narrative, Mind, and Culture (Benjamin N. Colby)
12. Simulation (and Modeling) (David B. Kronenfeld and Michael Fischer)

### **Part III: Cognitive Structures of Cultural Domains**

13. Mathematical Representation of Cultural Constructs (Dwight Read)
14. Kinship Theory and Cognitive Theory in Anthropology (F. K. L. Chit Hlaing (F. K. Lehman)

- 15. Numerical Cognition and Ethnomathematics (Andrea Bender and Sieghard Beller)
- 16. 'Indigenous knowledge' and the Understanding of Cultural Cognition: The Contribution of Studies of Environmental Knowledge Systems (Roy Ellen)
- 17. Emotions, Motivation, and Behavior in Cognitive Anthropology (E. N. Anderson)
- 18. Social Networks, Cognition, and Culture (Douglas R. White)

**Part IV: Cognitive Anthropology and other Disciplines**

- 19. Culture and Cognition: The Role of Cognitive Anthropology in Anthropology and the Cognitive Science (Norbert Ross and Douglas Medin)
- 20. Cultural Models, Power, and Hegemony (Halvard Vike)
- 21. Cognitive Anthropology Through a Gendered Lens (Carol C. Mukhopadhyay)
- 22. Sociality in Cognitive and Sociocultural Anthropologies: The Relationships aren't Just Additive (Lynn Thomas)
- 23. Cognitive Anthropology and Education: Foundational Models of Self and Cultural Models of Teaching and Learning in Japan and the United States (Hidetada Shimizu)
- 24. Archaeological Approaches to Cognitive Evolution (Miriam Haidle)

**PART V: Some Examples of Contemporary Research**

- 25. Dots, Sprinkles, and Flecks: Sonar Talk and the Distributed Cognition Model of Mind (Brian Hazlehurst)
- 26. A Foundational Cultural Model in Polynesia: Monarchy, Democracy, and the Architecture of the Mind. (Giovanni Bennardo)
- 27. Cognitive Approaches to the Study of Romantic Love: Semantic, Cross-Cultural, and as a Process. (Victor V. de Munck)
- 28. Trouble as Part of Everyday Life: Cognitive and Sociocultural Processes in Avoiding and Responding to Illness (Linda Garro)
- 29. Cultural Models of "Benign Senescent Forgetfulness" vs. Alzheimer's Disease: A Consensus Analysis of Three U.S. Ethnic Groups (Robert W. Schrauff and Madelyn Iris)

Afterward

One Cognitive View of Culture (David B. Kronenfeld)
